

## Caring for the health of employees and implementing physical examination activities

### Zhonganxie annual health checkup benefits

On July 31st, all employees of Zhonganxie carried out annual physical checkup activities. Caring for the health of employees, Zhonganxie is in action!

About 8 A.M., the mobile physical examination vehicle came to the downstairs of Zhonganxie Industrial Park. The doctors and nurses were full of energy, wearing white coats, stethoscopes around their necks, and smiling faces. The image of an angel in white! All employees of Zhonganxie lined up to wait for the annual physical examination.

All employees are very active cooperating with the medical check. Under the guidance of the doctor, the various medical examinations are carried out in an orderly manner. During the experience, everyone talking and laughing, making the fearful needle not so horrible. The doctors and nurses saw everyone being so orderly, courageous, and consciously disciplined, they cast appreciative look!

The body is the capital of work. It is very

important to care about your own body. Physical health should be the top priority at work. Only a healthy body can work better, and only a healthy body can create greater wealth and value, so the annual employee health check is indispensable.

Through this physical examination, the health of all Zhonganxie employees has been guaranteed, which is not only important for doing well in the future work, but also for the future life. Our health is closely related to our family members, so we must pay attention to our own health, so that our work and life can go further. Only with a healthy body will we show better performance on the road of struggle. The same as our walk through metal detector products can't show any problems!

## Two-day trip to the province for outstanding employees

—Shuangyue Bay, Huidong, Huizhou City, Guangdong Province

Photo: Finance Department Xu Tingting

The rain in August is still pouring, dripping crazily on the cheeks, like a passionate kiss from a lover, making people feel impulsive. Deng Shan, Xu Tingting, Su Huiyi, He Shasha, and a little beauty Chenchen started a two-day tour against the wind and rain.

### Places to Visit

### Double Moon Bay Observation Deck

Admire the most beautiful view of Double Bay. The bay is composed of two adjacent half-moon bays. Two sands directly connected to Daxing Mountain, like a dragon rush towards the ocean, static and dynamic, very magnificent. The Half Moon Bay by Daya Bay, gentle breeze and the fine waves. The Half Moon Bay by the Red Bay is full of turbulent waves and imposing

momentum. Surrounded by the sea on three sides, veiw picturesque, the White sandy beach, the dark green

forest belt, the big blue ocean, the colorful reefs, the charming islands constitutes the scenery of the South China Sea fishing port with dynamic and static blending.

### Turtle base

## Zhonganxie Released Wtmd With Wheels

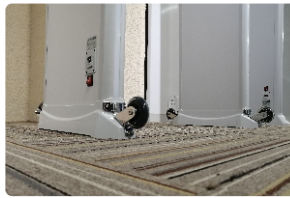

Photo: Publicity Team

In response to market demand, Zhonganxie has launched walk through metal detector with wheels to meet the needs of users for convenient movement.

Since the WTMD has enough weight, it can withstand winds of grade 3-4. However, due to its heavy weight, it is not easy for people to move it. The weight of the 400 series product is more than 50 kgs, and it is difficult to move by one person.

Therefore, usually it need two people to move it.

The solution is always more than the difficulties. With the ingenious design of Zhonganxie engineer, a portable mobile walk through metal detector has become a reality! By adding two sets of wheels at the bottom of the security gate, it is much easier to move by wheels. When you need to move the security gate, you can easily move the security gate by lean the security gate about 30° , so that the wheels touch the ground, moving to anywhere you want. The original work of two people, now it can be easily completed by one person, and the use of wheels to move is very labor-saving!

The wheels are lifted into the air, which will not cause any influence on the standing stability of the WTMD. Because of the ingenious design of the installation position of the wheels, it will not have any influence on the installation and use! The wheels can be installed at the front and rear of the WTMD at the same time, or on one side. If they are installed at the front and rear, they can be moved forward and backward by lean. If they are only installed at the front or back, the security gate can be leaned to the side with wheels. Very flexible and convenient!

Walk through metal detector with wheels are widely used, especially suitable for places such as security checkpoints where often need to be changed, exhibitions, stations, public inspections, construction sites, sports competitions, etc. The convenient movement of the WTMD made the deployment of security inspections flexible, adding a strength to the maintenance of the safety and stability of public places.

Walk through metal detector with wheels have been mass-produced at the our factory. 300 and 400 series product, temperature measuring doors all can be done. Welcome customers and friends to purchase and use!

## /// Birthday Night For Employees Of Zhongan Harmony In August ///

### The employees' birthday parties in August were held in Heyuan and Shenzhen respectively

In order to thank the employees for their creation and hard work, China Anharmic held birthday celebration activities for the employees in Heyuan factory on August 20th and shenzhen operation Center on August 21st, and send sincere wishes to the employees on their birthdays!

At 8 o'clock in the morning of August 20, 2020, Miss Zhenzhen of administration Department and Bijun of Operation Department carefully arranged the venue

for the birthday party at 6am o'clock in the evening. Two little women moved heavy tables and stools, prepared fruit plates, snacks and gifts, etc.. Their small bodies had great energy. 18:00pm in heyuan factory hall, decorate celebrate the venue has been particularly happy, give you sit three bread tables and chairs around the stage, with a red satin table filled up with employees love to eat fruit and snacks, more we employees love drink, shown on the screen on the stage with the birthday person's name and photo. A big birthday party is about to start!

There were not only wonderful performances and interactions at the birthday party. Games, there are more worthy of our learning colleagues to go to the customer public Share what you have learned. For example, As long as you, by Chen Xiaoyuan Still need me, Yu Jianbo's 'Father', sing big. The voice in the heart of the home, in the same department of work you and I need. Yes, my family on my birthday. I learned at the client Li Xuelei, a colleague of three months, Shared his learning experience. Let us know our strengths and weaknesses, motivate us in

In the future, I will improve my strengths and make up for my weaknesses, so as to serve customers better. There are hidden in our side of the talent of Huang

Mingxia brought good luck

He played 'Happy Birthday' and 'Chengdu'. Final

Photo: Publicity Team

activity Celebrate the colleagues also want to perform Xie Weixiong sent a grand finale song 'Back to the

Past. 'Multi - department cooperation, wonderful moment. Between emerge in endlessly, amuse this year's 'birthday stars' are happy

At about 8 o'clock in the evening, the birthday party came to an end. We lit the candles on the birthday cake and sang the song 'Happy Birthday to you'

together. At this time, happiness and affection, treasure and emotion were reflected in everyone's singing. In the end, the company prepared a special gift for each birthday person to express the special blessing to the 'birthday person'!

At 18:00 on August 21, the birthday celebration of Shenzhen Operation Center was held successively, heyuan Factory and Shenzhen Operation were in progress although my colleagues work in different

places and celebrate in different places, we sing the same birthday song. We are the same dream, the same goal, and strive hard, although thousands of miles apart but heart to heart, we are all for Security industry, for the security of the community to contribute to stability.

The day celebrating the birthday is the day that belongs to our zhonganxie staffs, the company thanks you for pushing forward in your position, under your efforts, our product technology has been constantly updated, quality has been constantly improved, product performance is stable, production output has been increasing.

## Create a national civilized city zhonganxie in action

Photo: Huang Yaping, Purchasing Department

This year is the year when our country has decisively defeated the nation to build a moderately prosperous society and fight against poverty. It is also the final year and decisive year for Heyuan's new round of building a national civilized city. The creative work has reached the critical stage of the final sprint. Every citizen has the responsibility and obligation to add color to our city through our own civilized behavior. Every social sector, every school, every company is doing its part.

When we walk on the street, we can always see volunteers wearing bright red vests beautifully the environment under the scorching sun and maintain traffic order in the wind and rain. It is precisely because

of everyone's efforts that Heyuan, a city, looks exceptional Neat, beautiful and civilized.

On the day of July 31th, the staff of Zhong'an Xie Company also actively participated in the creative work, because the staff of Zhong'an Xie company know that building a better city is not only a matter for the government, but also for each of our citizens. Only by working together, starting from bits and pieces, and actively contributing to the creation of a civilized city, can our city become more and more beautiful. Civilization is a breeze that refreshes people's mood. Civilization is a lamp that illuminates the bright future. Civilization is a rain, and it has nourished the dried-up spiritual civilization. The creation of a civilized city requires the joint efforts of all citizens. As long as everyone contributes a brick, the high wall of a civilized city can stand tall.

## Regular corporate ERP training is held in Heyuan factory

Photo&Article by publicity group

On July 30th, ERP training was held in Heyuan factory regularly, and all office staff participated in this training. Keep learning and progress, improve customer service quality and efficiency, China anharmic is taking action! On the afternoon of 30th, all the office staff gathered in the meeting room of Heyuan factory. The external ERP technical lecturer is already sitting at the front of the training table in the conference room. The electronic presentation screen has been opened and everything is ready. People sat around the training table in two large circles, their eyes focused on the electronic presentation screen in the conference room. The regular ERP training began in style.

At the moment of the training in the conference room, there was no sound except the sound of the technical instructor, and everyone listened attentively to the explanation of the technical instructor. The technical instructor's explanation is simple and profound, and every sentence is like the password to open the wisdom, which tugs at people's heartstrings. The superb operation skills demonstrated by the technical instructor make the listener never understand and become familiar with the palm of his hand, and the problems that have been questioned for a long time will eventually be

solved. Everybody listens to the technical lecturer's explanation earnestly, just as the great drought meets the rain, is enjoying the rain at the moment! In the process of active learning and discussion, the time went by. The two-hour regular ERP technical training soon came to an end. However, the questions hidden in everyone's mind were also solved one by one in the training. The moment we walked out of the conference room, everyone was more proud and their feet were more confident.

Two heads are always better than one! Every field

has a group of very professional people, learn from professional people will improve themselves! Zhonganxie take action to improve the quality of all staff, is of great significance in the future to do a good job in customer service. Through this training, all staff will do a good job in customer service, we will be more professional, more efficient, more confident! In the communication and cooperation with customers, will be more excellent in win-win cooperation!

## Held in the HBC Operation Center of Zhonganxie

Graphic: Publicity group

At 14:00pm August 3, Occupational Health Special topic which was held in the HBC operation center of ZhongAnXie by teacher Li Sha who is special lecturer of Safety and Health Education Network. All the staff popularized occupational health knowledge in this lecture and the quality of the staff has been improved.

Zhonganxie made an appointment with teacher Li Sha on July 30 and spoke on time at 14:00 August 3. Teacher Li Sha instilled a lot of knowledge of system professional safety and emergency management. So everyone learned about occupational health by teacher Li Sha's wonderful lecture. The four cornerstones of health and one stick were mentioned in the lecture.

Four cornerstones: 1. A reasonable diet 2. Moderate exercise 3. Quit smoking and limit alcohol 4. Psychological balance. One stick: regular physical examination. The lecture also showed a set of data. In our country, only 5 of the population is healthy, 20 are in disease. The remaining 75 are in sub-health state.

In addition to the explanation of health knowledge, Li Sha also explained and

showed the demonstration of Heimlich first aid method. This method is suitable for a large number of food, foreign bodies caused by respiratory obstruction. The principle is to use lung gas to flush the obstruction out of the body.

Teacher Li Sha also talked about different rescue methods for adults and babies. Everyone fully understood and mastered the essentials of this first aid method.

Finally, Miss Li Sha also reviewed cardiopulmonary resuscitation operation

methods, so that we have a deeper understanding of cardiopulmonary resuscitation. Everyone can learn a lot of knowledge by a wonderful lecture of occupational health. Through this lecture, we are aware of the importance of health deeply, and also master a first aid method, and the quality of the whole staff has been improved!

## Temperature detector of Zhonganxie Award for Innovation

Graphic: Publicity group

"Shenzhen Artificial Intelligence War Epidemic Symposium and Technology Achievement Exhibition" was opened at 10:00 April 18 by online exhibition. Temperature detector of Zhonganxie won the product innovation award. The organizer issued an award certificate to Zhonganxie on April 19.

This product can achieve the function of automatic temperature measurement, the examiner can complete the temperature measurement as long as through the

security door. No need to stay, the temperature measurement accuracy can reach  $\pm 0.3^{\circ}\text{C}$ .

Hundreds can be detected in a minute. In densely populated areas, it can help security inspection and medical staff to improve work efficiency, which also is an important anti-epidemic materials.

In the fight against the epidemic, the human body temperature detection gate has been applied to a number of fields. Such as: stations, high-speed rail, subway, airports, scenic spots, residential areas, shopping malls,

epidemic prevention agency... and so on.

It shows good performance and brings good help to anti-epidemic in many applications.

The workload will be high and big if you use a hand-held thermometer in areas where people are moving. This is undoubtedly to increase the burden of staff. But because of the slow speed, it will be cause the queue crowd gathering risk. A temperature-measuring gate can be used to measure the temperature of people without hindrance, such as:

It will be automatically alarm when someone have high temperature. And it is more easier to check temperature of human body.

It is recommended that this test be used in areas with large traffic. Warm safety check door, not only can reduce the input of temperature measurement staff, but also faster temperature measurement speed! At present, the production of Zhonganxie can produce 300 sets of this human body temperature inspection door a day. Welcome to purchase and use!

## Daily work sharing

### Unity and friendship

Graphic: Xu Tingting, finance department

Everything that unites people is good and beautiful, everything that divides people is evil and ugly. Let us witness this scene of love.

In this accident, the fingers of Miss Yujuan's bleed a lot. Mr. Hao and Raoxia accompany her to the infirmary and let her feel the warmth of the big family. In the post-treatment wounds, Miss Kong's nursing is also very professional, just look at this Two Picture.

Under the care of everyone, Miss Yu Juan's fingers have been recovered.

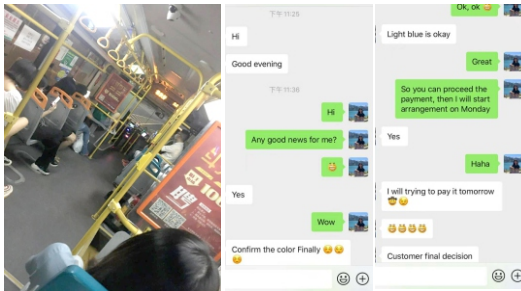

### Resonance with clients

Graphic: Liu Xiaqian, International Sales Department

After getting off work at night, I am waiting for the bus and receive customer information that the end customer confirms the specifications and place the order. So the heart of going home instantly warms. Excited...

Customers making orders with me are recognition of our products and services. Customers give me opportunities and I will cherish them. As long as customers need me, I will go all out to make the best service! Looking forward to more customers giving me orders!

## Proposal for "Advocating Economy and Stopping Waste"

Graphic: Lu Zhenzhen, Administration Department

All employees:

Our general secretary Xi Jinping recently made important instructions to stop food waste. He pointed out that the phenomenon of food waste was shocking and distressing! Everyone know that

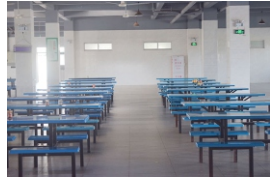

Harvesting grain is hard. Although the production of China's grain was bumper harvest for many years, it is still necessary to have a sense of crisis on food security. The alarm bell has been sounded by the impact of this year's global epidemic of new crown pneumonia.

In order to implement the spirit of General Secretary Xi Jinping's important instructions, The following initiatives are issued to all employees of the company:

First, Be a practitioner of waste resistance. Reasonable diet is good for health, whether eating at dining hall or eating at home, or restaurant order. Enough to eat as a habit, "CD action" as a fashion.

Second, Promoter of civilized dining. Advocate frugality and scientific diet to family and friends, and make public chopsticks and spoons and sharing meals become the standard of civilization by precepts and deeds, establish a family style that is shameful to waste and proud of saving, starting from saving a grain of rice, a drop of oil, etc. And becoming a green and low-carbon lifestyle.

Be a promoter of promoting the new wind. One porridge one food is hard to come by. Let all our employees take action positively, Start from now, refuse leftover banquets. Be proud of "CD action", and make it a good habit to advocate economy and prevent waste in the enterprise and society.

## Environmental protection is everyone's responsibility

Graphic: Zhangyanmei General office

Every day we read the news and find some reports about natural disasters. Such as earthquakes, tsunamis, floods and so on. What does the news tell us? Yes, the earth is sick, the earth has been destroyed by human beings everywhere. Let us act together to protect our mother earth.

Let's imagine that more and more waste batteries are used, and more and more people littering everywhere. We should throw the used waste batteries into the corresponding trash cans. The battery has a lot of radiation. If a battery is buried in the soil, then the land will be barren and also have white garbage. Although the country is not allowed to use, but those white plastic bags are still everywhere.

Our air is seriously polluted, the sky is blue no longer, but full of small particles from the factory and the sky is gray.

In addition, water resources are also very important, water is not endless, it is limit. It can only drink tears if there is no water. Let's save water together. Every drop of water is precious. For our healthy life, let's protect the earth and raise our awareness of environment.

B1

### The size of the room

There is a couple eating, the woman is pregnant, she looked at the big belly of the husband, then touched her stomach and said: 'baby, really let your father pregnant with you, your mother's stomach is a affordable house, your father's stomach is a big house!' Husband patted his fleshy belly and smiled bitterly: 'That's the large floor area, the wall is too thick, the actual living area is not much!'

### Letter from the Son

Two men are talking about their son who studying in the university.

One said: "I have to look up the dictionary when I reading my son's letter". Another: "You are so lucky!" I always have to run bank when I reading my son's letter"

### Future of children

A person sends a circle of friends: "It's not that I am blowing about my daughter. My daughter will manage the streets of the whole city in the future."

Friend A: "they will can be a colleague according to my observation with my daughter's online classes."

Friend B: "My son might sleep on the street. Please let them clean up."

### The importance of literary talent

A: What are you busy with recently?  
B: Nothing to be busy, the first is to investment in sports, the second is to engage in charity.  
A: Successful people.  
B: Smiled slightly and took out Lottery ticket and a two-color ball from the bag.

## Philosophical story

### Divine Signs

A remote town in France. It is said that there is a particularly effective spring where will be miracles that can heal all kinds of diseases. One day, a veteran with one leg missing who across the road in the town. The townspeople said with kissed back sympathetically: "Poor guy. Is he going to pray to god for another leg? The words were heard by the veterans, he turned around and said to them: "I do not want pray to god for a new leg, but need to pray? Help me. I do not know how to live when I do not have another leg."

### Happiness is simple

A team of gold panning are walking in the desert. Everyone walks heavy and painful. Only one person walks happily. Other people asked: "Why are you so comfortable?" He smiled and said: "Because I brought the least things."

### Frog without eyes closed

There was a child who was in the field. Once I saw a staring frog in the ridge. He mischievously took a dip on the frog's eyelid urine. But found that the frog's eyelids are no close, but keep staring with.

He became a salesman clerk when he grew up. He often think of the humble frog which being poured in urine when he was rejected by the client. Using the "frog method" to deal with sales. The rejection of customer as if the urine is sprayed on the frog's eyelids. He must be open your eyes and listen to your customers.

His name is Okushiro Ryoji who won the 16 years of sales champion of Nissan Motor in Japan.

## Dedication and hard work

A person of Zhonganxie who is in the struggle Just when I was young

Tribute to you in struggle

**Su Hui** Operations Manager Entry: 4 years

The results of active is far greater than passive behavior

I have been working at Zhonganxie for 4 years. We have been growing and making progress. I have always adhered to an important philosophy that we must take the initiative in everything that we do, and we must be at the forefront when solving problems. Under the leadership of Mr. Hao, the business philosophy of Zhonganxie has been subverting and innovating. The entire operation department must be used creative thinking to promote our products and services to a higher level!

**Jin Caihong** Sales Manager Entry: 9 years

Customer satisfaction is the result of our efforts

After 9 years of working in Zhonganxie, I have acquired shares in the company. I manage a sales team and serve many customers. From the customers, I can see their affirmation, satisfaction and appreciation for our company's products and services! Starting from the establishment of the company, continuous research and innovation, the company has changed more and more year by year. I am sincerely happy to see the company's prosperity!

**Deng Shan** Director of Finance Entry: 2 years

"meeting" one step, "plan" one step higher

In the past two years, I have worked with everyone in unity and solidarity. With the strong support of company leaders and colleagues, work diligently and lightly. Basically successfully completed financial management, accounting, performance effective assessment and other work. In the future, we will continue to strengthen learning and improve high self-comprehensive quality, and work around the company's production and operation goals. Service. I will improve various financial work to a new level and contributions to the development of the company.

**Hao XiuJun** Director of Purchasing Department Entry: 8 years

Responsible for the results

My biggest dream is to witness Zhonganxie from a young company to a group. As an old employee with 8 years of working experience in Zhonganxie, I have participated in the update of technology every time, and I need to supervise and inspect with the output product. I may not be the one who paid the most for Zhonganxie, but I am definitely a person who is willing to contribute to the teamwork of company. We do very well every time that we work, and the tasks are often ahead of schedule. At the same time our products and services are advanced to a higher level Steps.

**Jin Yongshan** Deputy Director of Production Entry: 6 years

Talk dreams is worse than working hard

As a member of the production line, our job is to "get it done". In order to deliver orders on time for customers, we often work overtime. All the security door of the world are using our security inspection products. I feel a sense of satisfaction in my heart, because these are all from our hard-working hands. There is a sense of accomplishment that safety is in my hands!

**Xu Tingting** Finance Department Cashier Entry: 2 years

Being strict with colleagues is to help them improve themselves

I am feeling of being at home in Zhonganxie. All colleagues are friendly and united. And support each other like family members. And Mr. Hao is like our parent. Even if it is a multi-disaster year in 2020. Everyone worried that out of work. But under the leadership of Mr. Hao, we can work overtime and have a stable job. This is very rare. So we want to thank our patriarch Mr. Hao!

## Cavalry Team of Zhonganxie - Business Tour to Hangzhou in August

Graphic: Tongweiru Domestic Sales Department

August is a special season, it has no spring flowers, no summer sun, but it is a book which expounded the past, liking wine worthy of our collection.

At 6:00 am August 9, Seven peoples of our team embarked on a journey to Hangzhou.

At 8:30 in the evening, we had safely arrived in the Binjiang District of Hangzhou. We washed away tired by

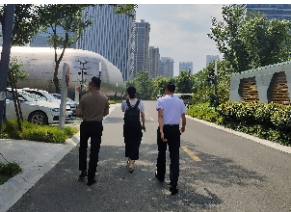

a sumptuous dinner. It is just like our life which have variety of sweet and sour tastes when we coming this way.

This evening, we do not give up enjoying the beautiful scenery of west Lake. We walk on the edge of west Lake. Enjoying the slight breeze and talking about the big and small things of work. It is more happier see first love when we see the Yegong who eating the popsicle.

On August 12th, we embarked on the way home, and the road was smooth and unimpeded. We especially want to praise my sister rainbow, and thank for my worker Yegong to escorting us and delivering us safely.

This way, bit by bit, will never forget! Because we have a common dream in our hearts!

On August 11th, It is a moving and unforgettable day. We met with another client who also a good friend. Five hours had passed when we knew it. So that we can not to visit west Lake at night. However, we can see from our smiles that the most beautiful scenery is not in places with scenery, but on every step of the way we have taken.

We firmly believe that we can overcome all difficulties!

Join hands to embark on a more brilliant journey!

## The dime test of high-precision security gate

Graphic: Publicity group

objects, and uses sound and light alarms to indicate that the passing person's portable metal objects exceed a certain amount. It consists of a host, a high-frequency signal generator, a signal receiver and infrared sensors and so on. It has a beautiful appearance, strong metal

detection ability, multiple detection zones, unique Internet remote operation management system, light and waterproof features. It is currently the leading metal detection door in the forefront of the market.

This security gate is a very large output in the factory of Zhonganxie. It has been purchased and used by a large number of customers. It is widely used in sports games, conferences, schools, stations, subways, hotels, shopping malls, exhibitions and other occasions.

It has the ability to detect dangerous objects with high precision, such as guns, knives, etc., in this security gate. It was successfully discovered under detection to take preventive measures!

Similarly, this high-precision security gate also was applied to the examination room to detect whether candidates have brought electronic products. Such as MP3, recording pens, mobile phones and other cheating electronic devices. It is maintaining the test environment of fair and maintaining the stable of examination room.

The product has obtained a number of appearance structure patents, and has obtained the software system copyright. This product uses an electromagnetic field to detect the detection structure of portable metal

B2
